

# DELIVER YOUR EXPEDITIONS *IN RECORD TIME*

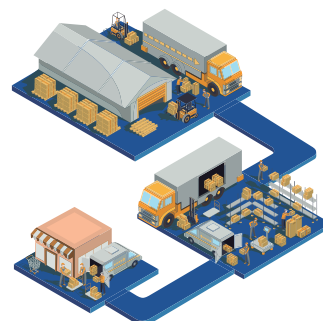

## SCATI PARCEL

### VIDEO SOLUTION FOR THE TRACEABILITY AND TRACKING OF PACKAGES

SCATI PARCEL guarantees the traceability of merchandise in sorters or automatic classification systems on cross-docking platforms thanks to the use of video systems.

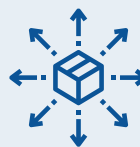

The solution resolves any incident in record time thanks to the image and video search associated with each package by tracking number, origin, destination... in any of the platforms through which it circulates.

Monitoring and recording of the automatic classification process

WMS synchronisation with CCTV

Integration of maps for the resolution of incidents

Centralized management of several logistics centers

Search for associated images and video

Comprehensive security of the facilities
